Career Objective

To join a forward-thinking tech company as a Java Developer, where I can leverage my hands-on experience in backend development, microservices, and full-stack technologies to deliver high-quality solutions and grow into a software engineering leader.

Skills

Languages: Java, JavaScript, HTML, CSS, SQL

Frameworks/Technologies: Spring Boot, Hibernate, REST API, Microservices, Kafka, React.js, AWS Cloud

Tools: Git, GitHub, Postman, Maven

Databases: MySQL

Experience

Softron Software Developer and IT Consultant, Kolhapur

Jan 2025 - Apr 2025

Java Developer Intern

- Developed Java applications applying OOP concepts and exception handling.
- Built small-scale Java projects to solve real-world coding challenges.
- Gained experience with version control systems and collaborative development tools.

IBM SkillBuild (Virtual)

Jul 2024 - Sep 2024

Frontend Developer Intern

- Created responsive web pages using HTML, CSS, JavaScript, and React.js.
- Applied modern UI/UX practices for clean and engaging interfaces.
- Gained practical experience with Git, version control workflows, and collaborative software development.

Projects

Smart Email Assistant

Spring Boot, Spring AI, React.js, Google Gemini, Chrome Extension

- Developed an AI-powered email assistant generating smart replies based on sentiment and context.
- Integrated Gmail API for real-time email access and dynamic responses.
- Built a Chrome Extension for seamless user experience.

E-commerce Platform

Spring Boot, React.js, MySQL

- Designed and implemented a full-stack e-commerce system with secure authentication, product browsing, cart, and order management.
- Developed REST APIs and responsive frontend with React.js.
- Optimized database queries, improving product search speed by 35%.

Education

Bharti Vidyapeeth Institute Of Management, Kolhapur

MCA, 2023-2025

CGPA: 8.4/10

Rajarshi Chhatrapati Shahu College, Kolhapur
